

AMENDMENTS TO THE SPECIFICATION

Please delete the paragraph that begins on page 3, line 7 of the specification and continues through page 3, line 12 of the specification (“The compounds of general Formulae (I)...or serotonin receptor 5HT_{2c}.”).

Please delete the paragraph that begins on page 3, line 14 of the specification and continues through page 3, line 15 of the specification (“The solubility...is generally >800 µg/ml.”).

Please delete the paragraph that begins on page 3, line 17 of the specification and continues through page 3, line 19 of the specification (“In vitro assays...as being preferred.”).

Please delete the paragraph that begins on page 3, line 21 of the specification and continues through page 3, line 23 of the specification (“The compounds of general Formulae (I)...inhibit such enzymes.”).

Please delete the paragraph that begins on page 3, line 25 of the specification and continues through page 3, line 28 of the specification (“Excellent pharmacokinetic profiles...low clearance, T_{1/2} 4–8 h.”).

Please delete the paragraph that begins on page 4, line 1 of the specification and continues through page 4, line 23 of the specification (“The compounds of general Formulae (I)...activity of eosinophils.”).

Please delete the paragraph that begins on page 4, line 25 of the specification and continues through page 4, line 29 of the specification (“The compounds of general Formulae (I)...(Int. Arch. Allergic Immunol. 1992, 99, 91–97).”).
